

# *Jordan's Mystery Date*

**Jordan Body is the most wanted person of Tudorsville. With six different people vying for Jordan's attention, who will be lucky enough to snag a date?**

# *How to play:*

**First, print out the cards (preferably on cardstock). You can also print out the backside of the cards.**

**Shuffle the cards and take out one card from each category. Make sure none of the players can see what cards you took out.**

**Deal the remaining cards to each player and give each of them a game sheet.**

**Give them some time to mark their cards on the sheet. Then pick one player to go first.**

**That player must guess the person, place, and mode of transportation:**

**“I think Jordan went on a date with Rose! They went to the park by subway.”**

**Or**

**“I think Jordan is going to the museum with Stefan. They are going by bus.”**

**The other players will check their own cards. If they have one of the cards that was guessed, they must show it to the guesser and that person marks it down. Then it's someone else's turn to guess.**

**This continues until someone correctly guesses the three cards.**
